Gets a Man Named Ray Into
Serious Trouble.

Question of the Ownership of a
Mare in His Possession De-
cided Against Him.

Crofton, Ky., June 4.—Claude Ray, a young man about 21 years of age was arrested here last Friday morning on suspicion. Ray came to Crofton about sunrise Friday morning, riding a very good mare, which was wet with sweat. He had been riding all night. He tried to trade the mare to several parties here who watched him very closely. Finding that he could not trade with any one he left Crofton, saying he was going to St. Charles. When about a mile west of Crofton J. M. Meacham, our town marshal, overtook him and arrested him and brought him back for investigation. In the meantime Mr. Odie Davis, of White Plains, arrived looking for his mare. Ray then confessed to having stolen the mare from Davis. Ray was then locked up till Saturday morning, when marshal Meacham took him to Madisonville and put him in jail. He waived his trial. Ray claims his home is at Poplar Grove, McLean county.

The game of base ball here today between Hopkinsville 9 and 6 of Crofton's with 3 of St. Charles, resulted in 6 to 4 in favor of Hopkinsville. If Crofton had played with their full team Hopkinsville would have beaten them worse.

WRONG BOTTLE.

George Harp Killed by Drinking
Carbolic Acid For Whisky.

Richmond, Ky., June 3.—George Harp, a citizen of Fayette county, died at the home of his daughter, Mrs. Rosa Riddell, at Kinston, this county, this morning, from the effects of drinking a large dose of carbolic acid. A bottle of whisky and a bottle of carbolic acid were sitting on a mantel, and in attempting to drink a draught of whisky he got hold of the wrong bottle.

He lived only three minutes after drinking the fluid.

Harp was about sixty years old and a well-known man.

OLDEST CITIZEN

In North Christian Died of Heart
Disease Sunday.

Mr. John Davis, probably the oldest citizen in North Christian, died of heart disease at his home near Kelly Sunday evening. He had been in bad health for nearly a year and was confined to his bed the most of the time. He was 84 years old and leaves a wife, ten children, about fifty grand children and several great-grand children. Deceased was a prominent citizen and leaves a large estate.

The funeral services were held at 5 o'clock yesterday afternoon at his late home and the interment took place in the family graveyard.

BACK FROM SCHOOL.

Christian County Pupils in Cherry
Bros. College.

Mr. J. M. Calvin, of Sinking Fork, Mr. Wm. Orton, of Clardy, and Miss Courtney, of Hopkinsville, have returned from the business college of Cherry Bros., at Bowling Green, and one other graduate, N. P. Guthrie, from this county will arrive home in a short while. This school last session had at one time 483 pupils in attendance. Last week steps were taken to locate the school permanently in Bowling Green. It will be remembered that Cherry Bros. at one time opened it to bring it to Hopkins-

PLANTATION CHILL CURE is Guaranteed.

SOLD BY R. C. HARDWICK, HOPKINSVILLE, KY.

VERY BIG PROFIT IN EGGS.

Frenchman Who Got High Prices for Common Ones.

A sparrow's egg seems of little or no value, and yet there is a man in Paris who can transform it into a prize really worth having. Indeed this ingenious gentleman makes a very handsome income through his skill in coloring birds' eggs.

A few years ago this wide-awake Parisian was an assistant in a provincial museum of natural history, and while there he learned and saw a great deal which had since been of much use to him.

So much, indeed, did he learn that when he lost his position he went to Paris and determined to start in business for himself. His apprenticeship at the museum had shown him the value of birds' eggs, and he decided to make a living by dealing in rare eggs.

As a rule he used the shell of some common egg, his sole care being to see that it corresponded in size with the desired eggs. The eggs of the common fly catcher are very cheap, and by coloring them properly they can be made to resemble much costlier eggs. Again, a duck's egg costs very little, and yet this ingenious French gentleman could easily transform it into an egg worth from \$10 to \$15.

Pigeon's eggs are also very useful for a similar purpose, since they are of exactly the same size as many very rare eggs. Any one with a knowledge of chemistry could change them so that the pigeons themselves would not recognize them.

Almost every collector of birds' eggs desires to have one or two finely marked nightingale's eggs and is willing to pay a high price for them. The Parisian dealer was well aware of this little weakness, and, larks being more abundant than nightingales, he found no difficulty in getting larks' eggs and coloring them so that they were exactly like the genuine articles. But they have sent this clever gentleman to jail.

To Much Glass Detrimental.

John Davidson, of Chicago, Ill., asks: "Would it not be a good plan to furnish scratching sheds with window sashes which could be removed during the summer months, rather than to use drop curtains, as is usually done?"

No, for the reason that glass draws altogether too much heat from the sun during the day time, which would make the scratching shed warmer than desired. It is not alone warmth and protection from the wind and storm of winter that the scratching shed is provided for, but also to give additional room for the fowls, to furnish them pure air and to induce exercise. Protection from storms and north and west winds is desirable, but not much extra heat. Fowls are provided with a warm coat of feathers to protect them against "still cold," and they will lay well under these conditions, but if turned out into the storm and winds, it is sure to cut off the egg supply. Changes of temperature are to be avoided. To have a poultry house with a glass front to the south means that the house will get too warm during the bright, sunny days, only to cool off too rapidly during the night, thus subjecting the fowls to an injurious variation of temperature. All things considered, a storm curtain made of a good grade of canvas and well oiled to prevent it from rotting and to keep out the rain, is the best that can be used.

HOMING PIGEON RECORD.

New Mark Set by George Rademaker's Lady of Quality.

In the homing pigeon fly May 28 Mr. George Rademaker's bird,

Lady of Quality, won the match, making an average speed of 1,348 yards a minute for 200 miles. The birds were liberated at Mayfield, Ky., at 6:50 o'clock yesterday morning, and Lady of Quality arrived at 10:59 o'clock a. m. This time was the best ever made from the 200-mile station in this part of the country, thus establishing a new record for the Louisville Homing Club.

Mr. C. J. Tiensch's bird, Helen Raze, winner of last Sunday's 100-mile race, was second. Her speed was 1,343 yards a minute. Mr. S. J. Schreck's bird, Bob Brown, was third, with a speed of 1,341 yards per minute. Mr. Henry Frerich's bird, Bob McCool, was fourth, speed 1,337 yards per minute. Mr. C. A. Hess' bird, Lady Bess, was fifth. Speed, 1,295 yards per minute. Mr. P. J. Schreck's bird, Anna, was sixth. Speed, 1,286 yards per minute.

The next race will be from Tipton, Tenn., an air-line distance of 300 miles. Other members had also returns, but were too late to be qualified. Mr. Rademaker also won the pool money.—Louisville Courier Journal.

Yarding Growing Poultry.

When chicks get partly grown it is necessary to confine them if one would keep peace in the family. Old hens around a door yard are bad enough but chicks are worse and even on a farm where they could have free range as well as they persist in hanging around the doorstep until the good woman of the house is nearly distracted.

We have never been satisfied with shutting them up in a permanent yard and so have devised a plan for a movable one. This we shall make on a frame about 16 feet long, four feet wide and five feet high with a large box to be placed outside but connecting for shelter.

The frame will be strong enough and light enough so that two men can easily move it along without allowing a chick to escape. As soon as the chicks have eaten off the grass from one strip the yard may be moved its width sideways and everything is fresh again.

Too many must not be placed in one yard but with a reasonable number in they do well and a lot of bad temper will be spared.—Practical Poultryman.

Diseases—Remedy and Prevention.

Avoid exposure. Lice—don't forget them. Sharp grit is a medicine. No fowl can stand dampness. Are you neglecting to disinfest?

Why are you sparing white-wash?

Idleness is no disease, but it breeds it.

Eggs from sick hens are unfit for food.

Too much raw meat will produce worms.

Too much fat meat will damage the bowels.

Filth causes more sickness than anything else.

Who would ever go to the trouble to vaccinate a hen?

A one-grain quinine pill daily will break up an ordinary cold.

The art of prevention consists in warmth, exercise, appetite and room.

Don't blame the breed for the disease it may have. As a rule, the keeper is at fault.

A teaspoonful of flour of sulphur in a quart of water is recommended for gapes.

A variety of food—rightly proportioned—will prevent many cases of looseness of the bowels. A Few Hens.

A canopy built over the roost and lowered at night will prevent fowls catching cold while on the roost.—A Few Hens.

Icebergs sometimes last for 200 years.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Hamberlin's Cough Remedy, by a friend, who knowing me to be a poor fellow gave it to me, I tried it with the result of most gratifying results. The first bottle relieved me much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by R. C. DEMOCRATIC TICKET.

For Railroad Commissioner,
J. FLETCHER DEMPSEY,
of Hopkins County.

A convention of tramps has been called to meet in Danville Ill., June 18th to discuss the social conditions out of which the hobo has been evolved.

Gov. W. H. Ellerhee, of South Carolina, is dead of consumption. He was prostrated two days after his inauguration last January and has been growing worse ever since.

Considering the fact that nobody else has paid any attention to the issue raised, the Paducah Register is still devoting a good deal of space to that "Philadelphia mint" matter.

Goebel makes four speeches in Barren, two in Christian and three in Hardin this week. In the closing days of the campaign there is a general hustle among all the candidates.

South Carolina has a new Governor. Gov. Ellerhee died Saturday night of consumption and at 11:10 the same night Hon. M. B. McSweeney was sworn in as his successor.

The contest for the speakership has turned so strongly in favor of Henderson, of Iowa, that it is believed at Washington that Sherman is practically out of the race. Hopkins, of Illinois, does not appear to have developed much strength.

The fire insurance companies doing business in Kansas have made a 20 per cent. reduction on farm rates, with a reduction of 35 to 50 per cent on frame buildings, and 25 to 35 per cent on brick buildings in cities having paid fire departments. Has anybody heard of a movement in that direction by the companies doing business in Kentucky?

There were three or four more criminal outrages in Southern States Saturday and more lynchings are liable to occur. One of the worst cases was at Cedarburg, Ga., where Grant Bell, a negro, entered the home of Mrs. J. C. Lumpkin, a widowed lady, seventy years old, and brutally assaulted her, beating her to insensibility. The negro outraged her and fled. He was arrested and placed in jail at Cedarburg.

President Loubet, of France, attended the Auteuil races near Paris Sunday, and a violent demonstration was made against him. In the melee many blows were exchanged among the rioters, and Count Cristiano struck the President's hat with a stick. Many arrests were made and subsequently a Cabinet council was called to consider the situation. Count de Castellane, Anna Gould's husband, was among those arrested.

A meeting of the Democratic Executive Committee, which is charged with the duty of appointing a place for the holding of the state Convention, will hold a session within the next few days to take action upon the complication in Louisville, by which two places have been selected to hold the approaching convention. The report of the sub-committee appointed to engage a hall will be received and all conflicts in authority inquired into and harmonized if possible.

Taylor seems to be running over the Bradleys in all of the early conventions, the Republicans calling the county conventions at such times as county committees wish to hold them. Taylor on Saturday received instructions for Governor in Magoffin, Marshall, Crittenden and Taylor counties, though the Pratt men chose a contesting delegation in the last-named county. Precinct meetings in Clark indicate that Taylor will get ten of the seven

teen delegates. Russell county gave no instructions and Harlan is not reported.

The busy housewife is a member of society, who while agreeing with Lowell as to the beauty of a day in June, longs for more leisure in which to enjoy them and therefore appreciates such hints and such suggestions as lighten labor and relieve care. In Table Talk are always to be found just such aids with regard to meals, methods of preparation, and so forth. Besides its menus, recipes and general mention of women's interests, it gives this month: "In Strawberry Time," by Margaret Hoagland Warner; "Frog's Legs," by James Buckham; "The Rose Fruit," by Martha Bocke Flint; "Delicious Fruits Preserved," by Amelia Sulzbacher; "Mother's Corner Lot," by Elizabeth Grinnell; "Early Training of Children," by Helen Raymond Wells, etc., etc. A sample copy of Table Talk will be mailed free to any of our readers sending their name and address to Table Talk Publishing Co., Philadelphia.

RESOLUTIONS

Adopted by the Ohio Valley League
of Bimetallic Clubs.

First—Our faith in bimetallism is vindicated by events. The necessity for the restoration of the double standard was acknowledged by the president and congress in 1897, when a commission was sent to Europe to entreat other nations to aid in establishing bimetallism, and the failure of the commission to secure European co-operation confirms the friends of free coinage in their belief that relief can only come by the independent action of the United States. The present logical ratio of 16 to 1 is the only ratio at which bimetallism can be restored, and opposition to it is confined to those who oppose bimetallism at any ratio, and to those who misapprehend or ignore the reasons which led three national conventions to adopt it. That whatever paper money needs to be issued in this country to supplement a gold and silver currency should be issued by the government of the United States directly, without the intervention of any bank or corporation whatever.

Second—We favor and recommend the enactment by the Democratic national convention in 1900 of the Chicago platform of 1896, without change.

Third—We especially favor and recommend the adoption by the Democratic national convention of 1900 the financial plank in the Chicago platform of 1896, without a change.

Fourth—We believe that the trust is the result, in large measure, of the methods that have been used, among which is the demonetization of silver, by which the volume of currency has been kept below the demands of business. We favor the destruction of the result as well as the removal of the causes. The establishment of independent bimetallism at 16 to 1 would do more to cripple or destroy the organization and the operation of the trust than any other single act. We recommend, therefore, the adoption by the Democratic national convention of 1900 of an appropriate and specific declaration against the organization and existence of the trust, and a specific promise of legislative and executive action tending to their extermination.

Fifth—We hereby express our continued confidence in William Jennings Bryan, and favor his nomination for the presidency of the United States in 1900.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it to be a disease and prescribed local remedies, but they steadily failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 to 30 drops a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, Ohio.

DETROIT CONVENTION.

Big Gathering of Christian Endeavorers.

Local interest among all people centers in the Christian Endeavor convention which meets in Detroit July 5 to 10. It is probable that a larger number of people from this place and section will attend this gathering than any of the former conventions.

Detroit, renowned for its beautiful buildings, streets and parks, and the delightful weather which the lake region afford during the heated term, and the convention, with its program of wonderful interest, will attract a crowd of such numbers that all previous conventions will be eclipsed. The program for the meetings shows such a bringing together of notable men, as has hardly been witnessed in this country.

Local Endeavorers and their friends will attend in large numbers. The itinerary for the Kentucky delegation has been arranged with a view to the greatest convenience and economy of those going.

The round trip rate from Hopkinsville is \$15.25, being a very low rate for such a trip. Board in Detroit will cost from \$1.25 per day up, this making the total expense low enough for the trip to be in reach of all. As an additional attraction, a very cheap rate will be made from Detroit to Niagara, giving those who have not seen this great wonder, an opportunity never before in reach.

All Endeavorers, or their friends who desire to go, can obtain full information by applying to Allan Wallis, local transportation manager.

A sallow, jaundiced skin is a symptom of disordered liver, as it springs from bilious poisons retained in the blood, which destroys energy, cheerfulness, strength, vigor, happiness and life. HERBINE will restore the natural functions of the liver. Price 50 cents. Sold by R. C. Hardwick.

THE DIRECTORY.

Apply Now for Advertising Space
Books Are Given Away.

The action by the Council requiring all houses to be numbered will make the 1899 edition of the Directory a much more complete and valuable volume than past editions. Every family will live in a numbered house and be supplied gratis with a copy of the book, which will of course be preserved for the information it will contain. This will make it a very valuable advertising medium and local merchants can obtain space at the uniform price of \$5 for a page and \$3 for a half page.

As we shall not fill up the book with advertisements from other cities, it makes the book more than ever valuable to home people. This Directory is a home enterprise. It will be compiled by home people. The work will be done in Hopkinsville and all money invested in it will be kept at home. Many of the merchants have already spoken for space and all will be welcomed to its pages.

The former edition of 2000 copies will be increased if circumstances seem to demand it.

FINE WHEAT CROP.

Harvest Near at Hand, a Big Yield Expected.

Mr. T. W. Riley has one of the finest fields of wheat in the county, on his farm near Newstead. The variety is "Curry's Prolific" and samples shown us bear out Mr. Riley's statement that there is no better wheat grown. He is expecting at least 30 bushels an acre from the entire field of 60 acres. The heads are large and well filled and the crop is already turning and will be ready to cut by the last of this or the first of next week.

GROVER ORDERED OFF.

Former President of United States
Ejected From a Farm.

New York, June 4.—Grover Cleveland, former president of the United States, was stopped while poaching trout on the land of Frank Johnson, a farmer of Tyringham, near Winestead, Conn., and ordered from the place. The statesman went to Tyringham as the guest of Richard Watson Gilder, who has a residence there. Dressed in old clothes and a big straw hat, and looking much like a countryman, he was whipping streams on Johnson's farm regardless of numerous large signs.

Johnson has some of the best fishing water in the neighborhood, and protects them with difficulty. A few weeks ago he caused the arrest of a poacher. When he saw Mr. Cleveland on his grounds he "stalked" him.

"Ah, there!" he shouted, waving a stick. "I've caught you at last."

"But, my dear sir," Mr. Cleveland began.

"Don't you dear sir me!" shouted Johnson, who was white with anger. "You just get off my property and don't lose any time about it, either, or I'll have you arrested."

Mr. Cleveland had only one thing to do, and he did it. He made his way to a fence and climbed over it, but for a moment he sat on the top rail, and it collapsed under his weight. It was Johnson's fence, and the mishap to it made the farmer madder than ever.

Neighbors went to Mr. Johnson and told him who the trespasser was. Instead of being sorry, he said:

"Grover Cleveland, eh? That's the man who wouldn't appoint me village postmaster when the whole place endorsed me. It beats all how vindictive some men are, and I never did a thing to him."

DAVID B. HENDERSON

Will Be Tom Reed's Successor as
Speaker.

Chicago, June 4.—The Record to-morrow will say: Congressman David B. Henderson, of Iowa, today received enough pledges by telegraph and mail to give him 102 votes in the Republican caucus when it meets in Washington. As ninety-three votes constitute a majority of the Republican representation in the House, Col. Henderson has nine to the good and more states to hear from.

JUNE 24.

Republicans Meet a Week Later
Than the Democrats.

The Republican County Executive Committee met Saturday in answer to a call from Judge Anderson, Chairman. Much business of a routine nature was attended to, and Saturday, June 24, was selected as the time for the holding of a mass convention in this city for the purpose of nominating a candidate for Representative in the Legislature, and for selecting and instructing delegates to represent Christian County in the coming State Convention. It is regarded as settled in advance that Editor Jas. F. Rogers will be nominated for representative.

There will be a hot fight between Pratt and Taylor for the county.

ASYLUM PATIENT DEAD.

Had Been an Inmate of the Institution Eleven Years.

James V. Leet, aged 35 years, died at the asylum last Thursday afternoon, after an illness of several months, of consumption. He was sent here from Glenville, near Owensboro, for treatment, in 1888. The remains were taken to Daviess County for interment.

Cassidy Club Formed.

Lexington, Ky., June 4.—A Cassidy Club was formed here last night with nearly 400 members, to assist A. M. Cassidy, of this county, to get the instructed vote of the city and county for Superintendent of Public Instruction. The Goebel Club has already gone on record as supporting Cassidy, and asking for instructions for him and no other State candidate. Former Senator Bronston made a strong speech for Cassidy.

French Want the Weed.

Two contracts for tobacco were placed in Louisville Saturday by the French Government. They are for 3,200' hogsheads of burley and 6,500 hogsheads of dark.

INDIAN RAILROADING.

A Two-Foot Track Through the Himalaya Mountains.

One of the most interesting railways of the world is the Darjeeling Himalayan railway. The track looks as if it had been laid for a toy railway, the gauge being but two feet. Notwithstanding this, the line is substantial enough, consisting, as it does, of steel rails weighing 42 pounds to the yard and laid on sleepers of Himalayan timber. The locomotives weigh about 12 tons, and are capable of hauling a train weighing 39 tons up inclines of one foot in 25, and round the hundreds of sharp curves which the exigencies of the ascent of a mountain railway render unavoidable. The railway was constructed in 1878 by British engineers at a cost of about \$25,000,000. It starts at Calcutta and takes the passenger up to a height of 7,100 feet above the level of the sea. The mail train from Calcutta for Darjeeling leaves the Eastern Bengal State railway terminus every day at four in the afternoon, reaching Darjeokdeah, on the banks of the Ganges, 16 miles from Calcutta, at nine p. m. At this point the passengers and mail for Darjeeling are transferred to a large ferry steamer, which proceeds to Sora Ghat, on the north bank of the Ganges. At Sora Ghat the train starts for Siliguri, at the foot of the Himalaya. This place is about 400 feet above sea level. Starting from Siliguri, the train has a comparatively level run for the first seven miles, and travels at the rate of 18 miles an hour. The gentle sweeps of the line give the traveler many a pretty glimpse of the forest scenery of the "Terai." In the fastnesses of the "Terai" lurk wild elephants, rhinoceros, tigers, leopards, wild buffaloes, wild cattle and deer, as well as hogs, wolves, wild dogs, monkeys and many other small animals. On one occasion wild elephants compelled the driver to take his train back to Sookna station. At the twentieth mile the train reaches Teendaria, where the company has its workshops. The elevation here is 2,822 feet. Leaving Teendaria, the train passes one of the most remarkable loops of the whole line. This curve is only 60 feet in radius. A few large trees still show what the original forest was, only a few years ago the haunt of the little barking deer, which are common in these hills. At the elevation of 6,500 feet the train passes another loop, at the Ghyabari station. At the forty-second mile the train reaches the bazaar and station of Sonada (6,682 feet), whence it pulls up at Ghoom station, which is situated at the highest point reached by the railway (7,407 feet above sea level). Thence it descends toward Darjeeling for a distance of some four miles, the line falling about 400 feet in this distance. This is the terminus of the line.—Philadelphia Record.

TWO MORE.

And The Commencement Season

Will be Over.

South Kentucky College Will Turn
Out Eight Graduates Wed.
Tuesday Night.

Two more commencements this week and all of the pupils in Hopkinsville will be out of school for the summer vacation, and some of them will be out forever.

South Kentucky College occupies the first part of the week, closing one of the most successful years in the history of the institution.

Last night, June 5th, the baccalaureate sermon was preached at the Christian church by W. H. Pinckerton, of Paducah. To-night at the College Chapel the Junior Exercises and Declamatory Contest will take place. Tomorrow morning the first assembly of students and faculty, reading of honor roll, etc., will occur in the Chapel.

The regular graduating exercises will take place at the Opera House Wednesday night, at which time the members of the graduating class will receive their welcomed diplomas. Below is a list of the members of the class with their degrees:

Catherine Thomas Manson, A. B.
Mattie Dabney Jones, A. B.
Edward H. Higgins, A. B.
Daniel Y. Young, A. B.
George P. Howell, B. S.
Grace Higbee Tinder, Music.
Florence Lee Elgin, Music.
Hazelie Deane Girod, Music.

Public School June 8.

The commencement exercises of the Public Schools will be held at the Tabernacle on the night of June 8. The list of 18 graduates has been published in a previous issue.

IN BOILING WATER.

Three-Year-Old Child Falls Into a Kettle, Receiving Fatal Injuries.

Benton Ky., June 4.—A three-year-old child of Bud Barker, near Iola, fell into a kettle of boiling water where the mother had been washing clothes. The child was rescued by a nine-year-old brother, but only lived four hours.

Both Fired.

Officer Myers arrested Bill Wallace and Mattie Coats, both colored, Sunday morning on a charge of fornication. They were tried before Judge Cansler yesterday morning and each was fined \$20 and costs. They went to the work house to serve out their sentences.

Children's Day.

Sunday was Children's Day at the Methodist church in Herndon and about one hundred of the little folks were on hand. A program consisting of recitations, songs, etc., was carried out and a large crowd was in attendance.

The fool kept the sheel, and threw away the kernel.

BOLD HOLD-UP.

Two Ladies Attacked by a Colored Foot-pad.

Mrs. Isaac Hart and daughter, Mrs. Max Lowenthal, were returning home from downtown, about nine o'clock Saturday evening, when as they were nearing the railroad crossing on Ninth street, they were suddenly and unexpectedly assaulted by a negro man, who seized hold of both ladies, at the same time roughly demanding their pocket-books. He threw Mrs. Hart against the wall of the Crescent Mill, and would have proceeded to lighten her of any money she had, when Mrs. Lowenthal demanded his attention, she having begun an assault upon the fellow, at the same time screaming for help. Fortunately the ladies were near their home, and Mrs. Lowenthal's cries brought her husband to their rescue. Two colored men were also attracted by the lady's cries. By this time the colored assailant had made his escape, and none too early, for had he been caught an indignant public would have made short work of him.

The ladies were neither seriously injured during their brief but fearful struggle in the hands of their powerful assailant, but both were prostrated, and have only rallied from the nervous excitement that followed the assault.

Mrs. Brewer's Humane Work.

A well-to-do Rhode Island lady, who looks after the sick of her city, writes Dr. Hartman of her practical experience with Pe-ru-na.

is blessed with some good Samaritans. Mrs. Lizzie M. Brewer, of 199 High St., Westerly, R. I., is a noble woman who devotes a great deal of time and money to caring for the sick of Westerly. She has been for several years one of Pe-ru-na's strongest friends, and under date of March 17, 1898, she writes the following letter to Dr. Hartman, Columbus, O., the originator of Pe-ru-na:

"Your letter is at hand, and my enjoyment is unbounded as I am a physician as yourself, always receiving such prompt and satisfactory replies to my questions. And what amazes me most is that this can be done year after year, with unfailing constancy. I have learned that you have become to thousands and thousands of households the same beneficial guide as I am to you. I advise that you are to your household."

"As for your free books, I read them everyone, and treasure their contents as the choicest wisdom. I have used Pe-ru-na in my family for a year, and I am sure as a result of its use there is no other remedy that can at all compare with Pe-ru-na. I notice in medical journals and newspapers that the disease seems quite prevalent in taking its grip especially in the after-effects of a grippe. From personal observation in many cases I know that Pe-ru-na is a sure specific for these cases. I am among the sick a great deal in our city, and have supplied many invalids with Pe-ru-na, simply because I am enthusiastic in my faith as to its results. I have never known it to fail to quickly remove a grippe."

"In cases of weaknesses peculiar to my sex I am sure that no other remedy can approach in good results the action of Pe-ru-na. It meets all the bad symptoms to which females are subject. The peculiarities and novelties of the remedy seem quite remarkable in taking its grippe especially in the after-effects of a grippe. Every young lady in our city could read your book 'Health and Beauty.' Any one wishing to inquire of me further can do so by enclosing a stamp for reply."

Hopkinsville, Ky.

United States Court.

The June term of the United States Circuit Court convened in Owensboro yesterday and will be in session a week or more.

DR. F. P. THOMAS
Office over Bank of Hopkinsville,
RESIDENCE—McPherson Place.
Telephone—Office No. 13.
Residence No. 104.

"Every married man must ask his wife a permission to make a sunrise. That was a saying of an old German man, now he says that marriage was a partnership in the broadest sense, and that there can be no success in any business or relationship in which the partners do not contribute equally to the success possible. For this, if for no other reason, every man who is trying to climb should be interested in his wife's health. A healthy woman is a happy, helpful, A tired, nervous, despondent in strength and depressed in mind, can contribute nothing mentally or physically to the husband's success. The remarkable remedy of this physician's prescription so strengthens the organs particularly feminine, dries up the glands, drains, heals ulcerations and inflammations and cures all trouble, that the cause of ill health is thus entirely removed, and the happy, happy wife becomes a genuine hexagon to the husband."

"I was sick for twelve years, and for two years I had to stop work altogether," writes Mrs. Bell McLean, of New York.

"I was treated by five different physicians, who prescribed in case Bright's Disease, improved condition and recovery, but still I suffered.

I suffered a great deal with pain in both sides and in the abdomen, and was often unable to stand. I was blotted at times in bowels and limbs. I was troubled with a disagreeable discharge from the internal organs, and was often troubled with palpitation of the heart. But from the use of Dr. J. H. McLean's Liver & Kidney Balm, I was soon relieved, forehead and eyes, and I also suffered from aching pain at monthly periods. Since taking this balm I have never suffered again, and have gained in weight twenty-five pounds."

Sick women can consult Dr. R. V. Pierce by letter, addressed to Buffalo, N. Y., above without charge. Each letter is read in private, its contents held in sacred confidence, all answers are mailed, sealed in plain envelopes, without advertising or other printed matter.

It is a good thing to keep Dr. Pierce's Liver & Kidney Balm. One Pelet is a laxative, two a cathartic dose.

Of Interest to Shippers.

The Supreme Court of Tennessee has rendered a decision of great interest to railroad officials and shippers. The Court has held that a railroad company can refuse to accept goods for shipment by a route designated by the shipper, and that the railroad company accepting a shipment has the right to fix the route over which it is to be transported.

If your stomach is disordered, bowels irregular, and you don't sleep well, you need PRICKLY ASH BITTERS. This is very effective in removing this condition.

SHAVING IN PORTO RICO.

Nature Provides the Mirror as Well as the Soap.

The natives of our new Territory Porto Rico, have no need to buy soap, for the wooded country abounds in plants whose leaves and bulbs supply most fully the place of that indispensable article. Among the best of these is the soap tree, so called, though it is more a bush than a tree. Its bulb when rubbed on wet clothes makes a snow-white lather, which has an odor like old brown Windsor soap.

The Porto Ricans, who are all, from the highest to the lowest, great dandies in their way, make soap out of cocoanut oil and homemade lye—and a fine soap it is—smooth and fragrant. This cocoanut oil soap is used for shaving. When a man wishes to have a shave in the morning he starts out with his cocoanut shell cup and his doukey-fish brush and bottle. It is never any trouble to find an empty bottle in Porto Rico, Cuba, Jamaica, or almost any of the larger West India islands, even in remote spots of the mountains. At least twenty generations of thirsty people have lived there and thrown away the bottles.

The man carries no mirror; he is too poor to own such a luxury. Not one house in twenty in Porto Rico has even the very cheapest looking-glass. But generally rich nature provides the mirror, as well as the soap. The man goes to some convenient pool in the mountain stream where the water is quite still; there is his mirror. He breaks his bottle on a stone and deftly picks out a sharp piece of suitable size. Then he lathers his face profusely and begins to scrape with his piece of glass which in his hands works as well as the best steel razor. A cut, or even a slight scratch, is extremely rare as a result of this al fresco form of shaving.

HIS PLAN

Is to Establish Colonies of Americans Veterans In Cuba.

Paul Vandervoort, of Omaha, Neb., Past Commander of the Grand Army of the Republic, has presented to President McKinley a plan to use part of the \$3,000,000 set aside to pay Cuban soldiers in transporting veterans of the Union and Confederacy to Cuba to establish homes. He claims to have thousands of letters from both armories on the subject, and says he can raise a Western legion similar to Jose Shelly's Mexican brigade to settle in Cuba, thus guaranteeing peace and a stable government. He believes the most patriotic movement of modern times can be started, and Cuba colonized by veterans, who will be willing to fight or till the soil.

SHOT HIS COMRADE.

Boy Foolishly Takes Aim at Playmate With a Rifle.

Guthrie, Ky., June 1.—A gloom was cast over the town Tuesday morning by the tragic death of J. M. Nichol's 10-year-old son, who was accidentally shot by E. M. Martin, a comrade of 12 or 13. A party of boys went out in the afternoon to shoot frogs at Telfer's pond. In a boyish prank young Martin pointed his 22-caliber target gun at the Nichols youth, when an unexpected report rang out, inflicting a mortal wound just below the heart. The ball ranged downward, but was never exactly located. After several hours' suffering death came to his relief. Interment at the Quarles burying ground.

Young Martin is inconsolable and is in such a state of nervous despondency that he cannot stay at home.

Crazy Prospectors.

If statements made in a letter from a Dawson City storekeeper are to be relied upon, the Klondike region is likely to come into competition with Monte Carlo for first place as a promoter of suicide. It is said that deaths from suicide are occurring daily in Dawson, Skagway, and other mining towns and camps. Failure to strike gold is driving unfortunate prospectors crazy.

Resigned His Pastorate.

A Baptist preacher at Madison, Ind., has resigned his pastorate in order to become a Mormon minister.

THE OFFICIAL CALL.

At a meeting held by the Democratic state executive committee in the city of Lexington, March 8, 1899, it was ordered that a state convention be held in the city of Louisville on Wednesday, June 21, 1899, for the purpose of nominating Democratic candidates for state offices, to be voted for on November 7, 1899. Said convention shall be called to order at 11 o'clock a. m.

Delegates to said convention shall be chosen at county mass conventions, to be held at the various county court-houses in counties having but one legislative district, of which due notice shall be given by the various county chairmen. In counties having more than one legislative district there shall be a convention for each legislative district, to be held at some convenient point, to be indicated by the chairman of the legislative district committee, who shall advertise in the local papers the location of said convention at least ten days prior to the date fixed by committee. Said county and legislative district conventions shall be held at 2 o'clock p. m., standard time, on June 17, 1899.

Said conventions shall be called together by the chairman of the respective county or legislative district committees.

The basis of representation of each county to the said state convention shall be one delegate for each 200 votes and fraction consisting of one hundred or more votes cast for the head of the Democratic electoral ticket at the presidential election in 1896; provided that each county shall have at least one delegate vote.

All known Democrats and others who supported W. J. Bryan for president, and those who pledge themselves to support the nominees of said conventions shall be entitled to participate in the county or legislative district conventions.

P. B. JOHNSTON, Chairman.

OWEN COOPER, Secretary.

The City Council Takes a Step
The People Will Approve.

Lower Taxes For 1899—The Light
Contract Renewed With
More Lights.

The Council met Friday night and was presided over by Councilman Brasher in the absence of the Mayor.

The Electric Light contract was renewed for five years at \$5,000 a year, the lights being increased from 40 to 60. The new lights will be put on by October 1st. This is considerably lower than the old rate, but the price in the aggregate is several hundred dollars more.

The most important action taken for several years, to the people at large, was the lowering of the tax rate for the second time since the Democrats took charge of the city government. The rate under Republican rule was \$1.65, which was reduced some years ago to \$1.50. Now comes a second and greater reduction, the rate for 1899 being fixed at \$1.25. This will not interfere with the retirement of the O. V. bonds at the rate of 6,000 a year, there being about \$76,000 of bonds still outstanding.

If the Democrats continue to administer the city's finances, a dollar rate is something that the near future will bring.

The assessment for 1899 is \$2,340,000, including the banks that have not heretofore paid city taxes.

An ordinance was passed making it compulsory on all citizens whose houses are not numbered to number them by July 1. The committee having the matter in charge will make no change in the system of numbering. Numbers will be on sale by June 15, by the City Treasurer, at 3 cents per figure.

Aside from the serious inconvenience and pain caused by piles, there is a tendency to fistula and to cancer in the rectal regions. Piles should not be allowed to run on unbroken. DEATH OF MRS. RICHARDSON.

Peacefully Passes Away at the Home of Her Son.

Mrs. Sallie L. Richardson, mother of Mr. P. C. Richardson, died at the home of the latter, on East Ninth street Friday afternoon.

She was 76 years old and several months ago suffered a fall, resulting in injuries which probably hastened her death.

She was a pious, Christian lady and leaves many friends to mourn her loss.

Dr. W. L. Nourse conducted funeral services Saturday afternoon and the interment followed at Hopewell cemetery.

Fined \$50.

"Pig" Carter was tried before Judge Cansler Friday on a warrant charging cruelty to animals and was fined \$50 and costs.

The case against John Mason, charged with a similar offense, was continued, as defendant failed to put in an appearance. Carter and Mason were accused of having killed a horse and left him upon the highway near Church Hill about two weeks ago.
